

SkillzBook

LETTER OF RECOMMENDATION: ZANDTBX (PTY) LTD

Date: 01/03/2026

To whom it may concern,

I am pleased to recommend Zandtbx (Pty) Ltd for their work in the redevelopment of SkillzBook and the introduction of digital tools to support assessment, moderation, and attendance register processes. Through the redevelopment of SkillzBook, Zandtbx demonstrated an understanding of our educational and operational requirements, translating these into a more integrated, accessible, and user-friendly platform.

Their contribution also extended to introducing digital tools that streamline assessment and moderation workflows, support recordkeeping, and improve the management of learner attendance registers. These solutions have helped reduce administrative effort and strengthen the visibility and coordination of key processes.

Throughout this work, Zandtbx demonstrated technical capability, initiative, and a practical approach to problem-solving. Their ability to connect technology with the day-to-day needs of an education and training organisation has been particularly valuable. Based on this experience, I confidently recommend Zandtbx to organisations seeking a technology partner for digital transformation, learning platform development, and the digitisation of educational and administrative processes.

Yours faithfully,

Dr Goosen
CEO
